

Be Safe, Be Kind.

How to behave around Mabel.

This is Mabel...
She is our new
school dog!

But how do we behave around her?

- If you want to stroke Mabel, you need to ask.
- Stay quiet around Mabel- she doesn't like to be startled.
- If Mabel is sleeping, you must leave her alone. She needs her sleep, just like we do.

But how do we behave around her?

- If Mabel is eating, leave her alone. She doesn't like to have her food taken off her.
- If Mabel sniffs you, just stand still. She wants to make friends with you but must do this in her own time.
- If you stroke Mabel, remember to use kind hands. She loves strokes.

Most Important!

If Mabel is walking around school on the lead, there is a magic box around her. This means you can only say 'Hi Mabel' and carry on with what you are doing. She has to get used to school as it is a very busy place!
